

# CHARGING SOLVED!

# TRAXXAS

## iD Auto Battery Identification

Recognizes Traxxas iD Batteries To Automatically Program and Optimize Charge Settings

### INNOVATION OF THE YEAR - RC Car Action

#2970

40 Watts  
4 AMP  
NiMH / LiPo

**EZ-Peak Plus with iD**  
4-Amp AC Peak Detecting Fast Charger

8-Amp Output Charges Two Batteries at Once

100 Watts  
8 AMP

Dual NiMH / LiPo Fast Charger

- Charge NiMH and LiPo batteries at the same time
- Charge two batteries at 50-watts or one at 100-watts
- The easiest one-button charging solution
- Automatically recognizes Traxxas iD batteries
- Charges all your Traxxas batteries, new and old.
- Built-in balance ports charge conventional LiPo batteries
- Integrated balance connector on iD batteries eliminates fragile balance boards and connectors

Dual Charging 4-Amp 4-Amp  
4 amps x 2: Charge two batteries at the same time at up to 4 amps each.

8 amps x 1: Cut your charge times nearly in half with 8 amps of charging horsepower. 8-Amp High Output

## Compact, Portable, Fast NiMH Charging Solutions

AC to DC Adapter #2976

DC Peak Detecting Fast Chargers

4-Amp

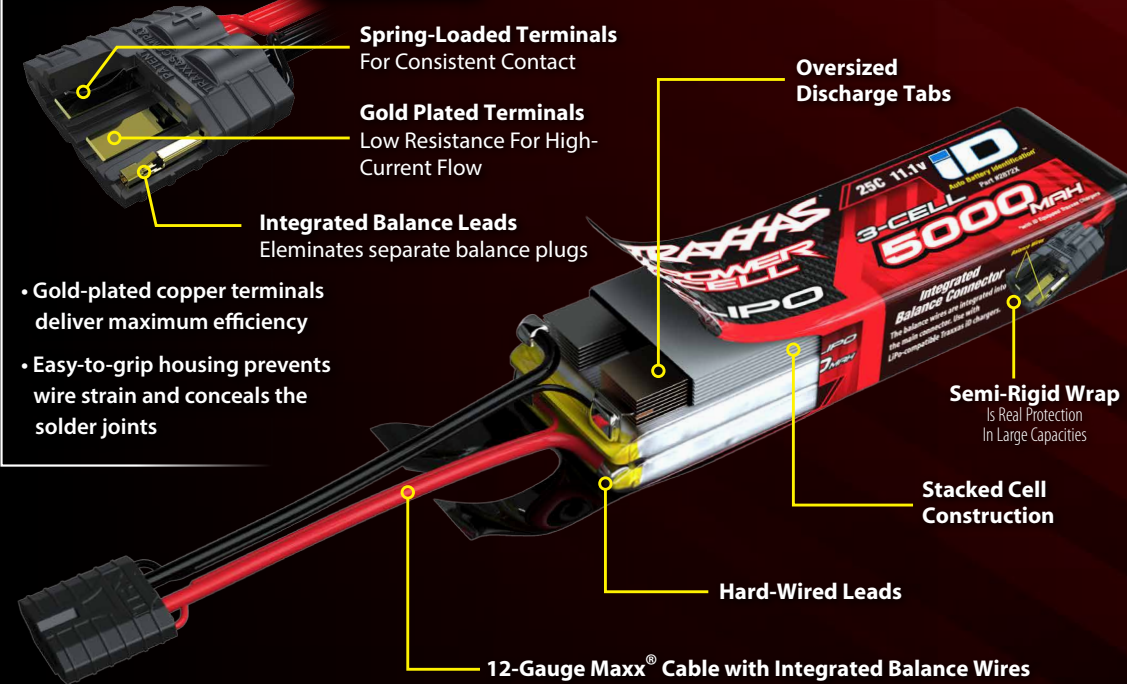

#2974  
2-Amp

#2977  
2-Amp with Molex Connector

Get ALL the power, performance, and speed that's engineered into your Traxxas vehicle.

As Rugged As The Vehicles They Power

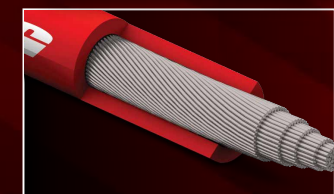

### High-Current Connector

- Gold-plated copper terminals deliver maximum efficiency
- Easy-to-grip housing prevents wire strain and conceals the solder joints

### Semi-Rigid Design

Greater capacity in a given size, unlike a hard-cased pack

### MAXX Cable

High-efficiency 12-gauge wire for free-flowing current

### Oversized Tabs

Wider tabs deliver more power and capacity on every run

## Battery Application Guide
